**DETAILED ACTION / ALLOWANCE**

This action is in response to 8/22/2005 filing by the applicant.

***Allowable Subject Matter***

Claims 1-4, 6, 7, 9-12, 14, 15, 17-21 and 23-25 are allowed.

The following is an examiner's statement of reasons for allowance: Claims 8, 18, 19 and 22 had been previously objected to as being allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. The applicant has included the allowable subject matter from these claims into each of the independent claims, and thus all claims are allowable.

The nearest prior art of record, while teaching two separate portions of a smart card that come together such that an electrical connection is formed via capacitance, fails to teach or fairly suggest, in the context of the various limitations upon which the claim depends, that the structural part is attached to the smart label substrate on the side opposite to the side where the circuitry pattern is located, and the dielectric layer is the smart label substrate.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Daniel A. Hess whose telephone number is (571) 272-2392. The examiner can normally be reached on 8:00 AM - 5:00 PM M-F.
